DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Fischer et al. (US 6,151,480) discloses a method for communicating a data signal over a power line carrying a power signal (abstract) but fails to explicitly disclose the step of disposing the core of the transformer in sufficiently close proximity to the power line to induce an AC voltage in the winding from the power signal carried by the power line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
